BENEFICIARY DATA EXCHANGE (BENDEX) REPORTS

Within the next week, the Department will release the January and February 1980 BENDEX report to county welfare departments. In addition to the new or changed Title II payment data for county administered beneficiaries, the monthly BENDEX report contains data for SSI/SSP recipients. Also, BENDEX records appear when there have been other changes which may not affect the Title II benefit amount.

Attachment I is a description of the data elements contained on the existing BENDEX report that are of importance to the county in determining Title II income amounts and other eligibility factors. Information on the other eligibility factors is in the form of codes appearing in various fields on the report. They are a notification that the Social Security Administration has learned of changes in an individual's situation that could affect his/her Title II benefits. Certain of these changes, such as a death in the family, the employment of a family member, recovery from disability, etc., could also affect Medi-Cal eligibility directly. Attachment I explains which type of possible or actual change is represented by each code. If counties were unaware of such alleged changes in a case prior to receipt of the BENDEX report, these changes should be researched to see if and when they actually occurred, and their impact on the case's Medi-Cal eligibility.

The Department is in the process of modifying the BENDEX report to simplify the coding remarks for easier interpretation and to contain only that information which reflects new or changed Title II payment and other pertinent eligibility data for county administered beneficiaries. A letter will be sent to all counties describing the new report, including record layouts when the modifications are completed. Until then, those fields appearing on the current report for which there are no explanations on the Attachment should be ignored.

At the request of several counties, the Department is exploring the feasibility of preparing a periodic BENDEX reconciliation report. A questionnaire

will be sent to each county shortly for indication of the time basis for the reconciliation report and production mode (paper, microfiche or magnetic tape) preferred for both reconciliation and monthly BENDEX reports.

If you have any questions or suggestions for improving the BENDEX report, please contact Karla Gurley of my staff at (916) 445-1797.

Sincerely,
